When completed please either email to info@clarkcountyferalcats.org or send U. S. Postal mail to: Keith Williams, P. O. Box 570683, Las Vegas, NV 89157-0683. Doing a census of feral cat colonies is not an exact science. Please provide the information to the best of your ability.

Feral Cat Colony Census

Instructions and definitions:

Colony sponsor.	Approved animal rescue or humane society that you are working with to manage your colony.
Colony caretaker	Any person who provides food, water, shelter and medical care to and traps, sterilizes, and vaccinates a feral cat or cats and who is approved by a sponsor to care for a feral cat colony.
Colony location	Where the colony is located. This can either be the address where the primary feeding station is located or the nearest street intersection for a larger neighborhood colony.
Location Zip code	The Zip code of the colony location.
Colony start date	The approximate date when the management of the colony started.
Report date	The date that this census document is being completed.
Number of cats	The number of cats currently believed to be in the colony. This includes "Number of kittens" and any new members.
Number of kittens	The number of kittens believed to have been born in the colony in the last year. This also includes new kittens of unknown origin. This number is included in the "Number of cats".
Number of TNRs done	The number of "Trap, Neuter, and Release" done in the last year. If this is the first time the colony has been counted then this will be the number of cats currently in the colony who have had TNR.
Number of deaths	The number of verified deaths in the last year. This requires actually finding the body.
Number disappeared	The number of cats included in the last census that are no longer in the colony.
Color	Basic color(s) of the cat. Tan, Orange, Gray, Black, White, Calico. For multi colors use short form, B/W, G/W, etc. Solid, dull and bright can also be included.
Breed	Most are actually mixed breeds so an exact breed is not needed. The basic breeds are Domestic short hair (DSH), Domestic long hair (DLH), Black and white (B/W), Tabby, Tortoise shell (Torti), Calico, Siamese.
Sex	Gender, if known.
TNR date	Date TNR done. If this cat has not been done please enter "NO" to indicate this cat has not been trapped.
Rabies vaccination #	Most feral cats will not have rabies vaccination tags or numbers. It will be assumed that it has been vaccinated if it has been TNR'd.
Microchip #	Most feral cats will not have microchips. We are trying to implement this for positive identification in the future.
Description of cat and notes	Extra information on cat including vet visits, health issues, condition, or further identification information.
Did I miss something?	Contact the Central Sponsor at info@clarkcountyferalcats.org or U. S. Postal mail to Keith Williams, P. O. Box 570683, Las Vegas, NV 89157-0683
